

Investment Objective

The US Stars Equity fund seeks to generate long term capital growth by investing in a concentrated portfolio of American companies with enduring competitive advantages and a long runway of growth.

We select companies based on our own fundamental research, taking a long-term investment horizon. We do not follow benchmarks and always invest in quality.

Quality for a company means strong competitive positions, operating in good and growing industries, the financial strength to weather adversity and strong management teams with track records of value creation.

We seek to identify undervalued quality growth companies where the scale or persistence of growth is underappreciated by the market and there is the prospect of significant capital growth.

Performance since launch on 30th Sept 2024 is that of the Fund's A1 USD Share class. Prior to launch Performance is that of J. Stern & Co.'s US Stars Strategy, a simulated or hypothetical portfolio, that has been a standalone strategy since 1st June 2023, unhedged, which the Fund follows. Since 1st October 2012 performance is total return (with dividends reinvested) and net of 1% fees per annum, deducted 0.25% quarterly in arrears. Prior to 1st June 2023 (and from inception on 1st Oct 2012) performance is that of the US primary listed holdings of the World Stars Global Equity Strategy (and so without any allocation to cash), with performance reduced by 0.25% quarterly in arrears to represent 1% fees per annum. Past performance is not a reliable indicator of future results; the value of any investment can fall as well as rise; and returns may increase or decrease as a result of currency fluctuations. The MSCI USA NTR is designed to measure the performance of the large and mid-cap segments of the US market. With 593 constituents, the index covers approximately 85% of the free float-adjusted market capitalization in the US. Source: Factset, Wize, Bloomberg, J. Stern & Co. As at 31st March 2025.

Share Class Summary

Share Class	NAV	AMC	OCF*	Minimum	ISIN

Portfolio Comment

March saw another sharp decline in the US market, with the broader market down 5.9% and the US Stars fund declining by 8.3%. Market uncertainty was heightened by proposed tariffs from President Trump, which affected multiple sectors.

Among the top performers, *Intercontinental Exchange* continued to benefit from increased oil and energy trading.

In the technology sector, major companies including *Nvidia*, *Meta*, and *Adobe* faced declines as the market retreated.

During the month, we initiated a new position in *Intuitive Surgical*, which is currently rolling out its new Da Vinci 5 system—a key growth driver for the company this year and beyond. With the recent share price decline driven by broader market weakness, we saw this as an opportune time to invest in a high-quality industry leader.

While we anticipate continued market volatility, we believe the portfolio remains well-positioned to capitalise on long-term secular growth opportunities.
