

Investment Objective

The World Stars Global Equity Fund seeks to achieve its objective by investing in a concentrated selection of shares in leading global companies with enduring competitive advantages and a long runway of growth.

We select companies based on our own fundamental research, taking a long-term horizon. We do not follow benchmarks and always seek to invest in quality and value.

Quality means companies that are global leaders, have strong competitive positions and pricing power in structurally attractive and growing markets, have management teams with strong records of value creation and have robust balance sheets.

Value means buying those companies at prices that allow for the prospect of significant capital growth over 5-10 years or more.

Portfolio Comment

Although the overall economic background remains mixed, with known weak spots such as manufacturing in the Eurozone and concern over trade uncertainties, there is still good evidence to support a positive view of continued growth in global GDP and corporate profits. Policymakers are concerned to address the soft patches in major economies and many leading companies in growth industries not subject to disruption or disintermediation are generating robust results and strong cash flows.

Our portfolio continued to outperform in July. Performance was led by Alphabet +13% in the month, which together with Facebook reinforced our view that the best 'big tech' stocks have a long runway of growth ahead. Alphabet beat market expectations on revenue growth (+22%) and also highlighted the strength of Google Cloud which with \$8bn of annualised revenue is the clear No 3. Facebook's revenue grew 32% in constant currency in the quarter, with particular strength from its 'Stories' ads. Monthly average users rose 8% led by Asia and RoW.

Amongst our consumer names, EssilorLuxottica rose 7% following robust H1 results, affirmation of the merger synergies, and the acquisition of GrandVision, a leading global optical retailer with over 7,000 stores. This network is weighted to Europe & Asia, areas where EssilorLuxottica is underrepresented.
