Investment Objective

The World Stars Global Equity Fund seeks to achieve its objective by investing in a concentrated selection of shares in leading global companies with enduring competitive advantages and a long runway of growth.

We select companies based on our own fundamental research, taking a long-term horizon. We do not follow benchmarks and always seek to invest in quality and value.

Quality means companies that are global leaders, have strong competitive positions and pricing power in structurally attractive and growing markets, have management teams with strong records of value creation and have robust balance sheets.

Value means buying those companies at prices that allow for the prospect of significant capital growth over 5-10 years or more.

Portfolio Comment

2019 has been a year of records for many equity markets. The MSCI World delivered its best performance for a decade, +23.4% in GBP. Easing trade tensions between the US and China added to an already positive background for global equities – based on a combination of low interest rates, supportive policymakers, a resilient consumer and good results from many leading companies.

Our portfolio fully matched the global equity market, despite a slower fourth quarter as sector rotation favoured value stocks. In December alone four of our digital stocks rose by 7-8%. Each has a powerful competitive position in a long-term growth market such as online travel (*Booking Holdings*), mobile data usage (*American Tower*) or online gaming (*Activision Blizzard*).

2020 is likely to be another year with geopolitical issues and bouts of volatility, including the escalation of tensions with Iran at the time of writing, Brexit, and the US elections in November. But we continue to remain positive on the prospects for the global economy, a resolution of the US-China trade dispute and further growth in corporate profitability. Stocks continue to offer the prospect of generally attractive real returns and none more so than the leading global companies in growth industries such as we hold in the World Stars strategy.
