

Investment Objective

The World Stars Global Equity Fund seeks to achieve its objective by investing in a concentrated selection of shares in leading global companies with enduring competitive advantages and a long runway of growth.

We select companies based on our own fundamental research, taking a long-term horizon. We do not follow benchmarks and always seek to invest in quality and value.

Quality means companies that are global leaders, have strong competitive positions and pricing power in structurally attractive and growing markets, have management teams with strong records of value creation and have robust balance sheets.

Value means buying those companies at prices that allow for the prospect of significant capital growth over 5-10 years or more.

Portfolio Comment

The World Stars Global Equity fund continued its strong performance in June and is now up for the year, compared to the MSCI World which is still negative. Investor confidence has been supported by improvements in leading indicators and by a strong sequential recovery in retail sales, as well as by continued fiscal and monetary support from policy makers including the Fed and the ECB.

Three of our stocks rose over 10%. Amazon and Adobe are clear beneficiaries of the shift to staying at home and working remotely. With powerful competitive positions in their growth industries both stocks will deliver much more. Sika, the Swiss-based materials technology company and a global leader in concrete admixtures, sealants and waterproofing, will be a major beneficiary of rising building and infrastructure spend.

Facebook faced a campaign for a temporary pause in advertising by some of its advertisers. We believe the company needs to do more to address concerns about objectionable content. However, we are positive about the 3bn monthly active users across its social networks (80% ex-US & Europe) and the diversity of its advertiser base (c. 8m mostly small and medium-sized companies).

We have added Visa to benefit from its exposure to the global payments industry as more and more transactions go cash free, and to take advantage of the sell-off due to the short-term impacts of the Covid-19 pandemic.
