

Investment Objective

The World Stars Global Equity Fund seeks to achieve its objective by investing in a concentrated selection of shares in leading global companies with enduring competitive advantages and a long runway of growth.

We select companies based on our own fundamental research, taking a long-term horizon. We do not follow benchmarks and always seek to invest in quality and value.

Quality means companies that are global leaders, have strong competitive positions and pricing power in structurally attractive and growing markets, have management teams with strong records of value creation and have robust balance sheets.

Value means buying those companies at prices that allow for the prospect of significant capital growth over 5-10 years or more.

Portfolio Comment

The sell-off in global markets accelerated in March with the MSCI World Index down -13.2% in USD. However, our World Stars strategy continued to demonstrate considerable resilience with 4.7% outperformance in March alone and 6.4% in 2020 YTD. Our focus on high quality stocks in attractive global industries, with high cash flow generation and strong balance sheets has provided significant insulation from the Covid-19 crisis and the economic impact of the government measures to contain it.

A number of our holdings are beneficiaries of changes in economic and consumer patterns from the crisis, including *Amazon* and *Activision Blizzard* or are actively involved in finding new testing and therapeutic solutions like *Abbott* and *Thermo Fisher*.

We have made several changes to the portfolio, exiting three companies where our investment thesis has weakened. We have redeployed part of the proceeds into *Givaudan*, the leading global flavours and fragrances business, and into *Alcon*, the leading eye care company.

At the time of writing markets are encouraged by early signs of containment in Europe. However, we do not discount further significant volatility as the pandemic takes its course in the US and the significant economic impact becomes clearer. We are holding about 8% cash and will look to deploy it as further opportunities arise in high quality growth stocks that have fallen sharply in value.
