J. Stern & Co. World Stars Global Equity Fund

Class A1 GBP (ISIN: LU1979604003, SEDOL: BKC5RL2)

a sub-fund of Alpha UCITS SICAV

Waystone Management Company (Lux) SA (formerly named MDO Management Company) is the SICAV management company for this fund

OBJECTIVES AND INVESTMENT POLICY

Investment Objective

The objective of the sub-fund is to achieve capital growth over the long term. For these purposes, long term means 5 to 10 years.

Investment Policy

The sub-fund seeks to achieve the objective by investing in a concentrated basket of equities in leading global companies, which are selected based upon the Investment Manager's fundamental research, taking a long-term horizon and always seeking to invest in quality and value.

The investments of the sub-fund will principally be a concentrated section of shares in global companies.

The remaining assets will be held in cash, cash equivalent investments and in government and investment grade bonds.

It is envisaged that the companies will be predominantly based and listed in developed markets. However the sub-fund may

invest up to 15% in shares of companies based and listed in emerging markets.

Benchmark

The sub-fund is managed actively with no reference to any benchmark.

Fund Currency

The reference currency of the sub-fund is the USD and the share class currency is the GBP.

Subscription and Redemption

Investors may purchase or sell shares of the sub-fund on a daily basis (Luxembourg & London business days).

Distribution Policy

Income generated is reinvested.

RISK AND REWARD PROFILE

Risk Disclaimer

The risk and reward indicator illustrates where the sub-fund is positioned in terms of its possible risk and reward. The higher the sub-fund's position on this scale, the greater the possible reward, but also the greater the risk of losing money. Even if the sub-fund is in the lowest risk class you can lose money as no investments are entirely risk free. The risk indicator is calculated using historical data and therefore cannot be used as a prediction for the future. The risk classification may change over time.

Why is this Sub-Fund in this category?

The sub-fund is subject to a high level of risk being linked to typical risks of equity markets, such as macro-economic trends. At this time, the level of risk and reward profile is equal to 6.

Not all risks affecting the sub-fund are adequately captured by the synthetic risk indicator. The following risks may affect the sub-fund:

Operational risk - That may occur due to technical issues for example natural disasters and fraud.

Currency risk - When the sub-fund invests in assets denominated in a different currency. A devaluation of the asset's currency relative to the currency of the sub-fund will lead to a reduction in the value of the sub-fund.

Full details of all risks the sub-fund is exposed to are provided in the Prospectus.
