

Investment Objective

The Star Multi-Asset Income Fund's investment objective is to generate an attractive income return on its Portfolio with lower volatility and the opportunity for capital growth.

The Star Multi-Asset Income Fund seeks to achieve its investment objective by investing in three asset classes; Equities, Credit and Non-Correlated Assets. We set bands around the portfolio components as follows:

- 25-35% - Equities allocation to drive capital growth
- 40-60% - Credit allocation to generate income
- 20-25% - Non-Correlated Assets allocation to provide uncorrelated returns with an attractive income yield and reduce overall volatility

The asset allocation is driven primarily by the yield that can be generated by the Credit portion, and complemented by the expected capital appreciation of the Equity and Non-Correlated Asset components.

Portfolio Comment

Following a strong end to 2020, January performance was muted at -0.1%, but bolstered by our resilient fixed income portfolio which continued with its recovery from last year.

Many of our companies reporting full year results for 2020 have produced broad evidence of a strong improvement in business trends with revenue growth and guidance for earnings raised in many cases.

Abbott (+13%) was the top performer. It reported outstanding Q4 results with organic sales up 28% and new EPS guidance for 2021 some 8% higher than the previous consensus for 2022. Similarly, *ThermoFisher* (+9%) reported Q4 revenues up +54%.

In credit *YPF* saw a positive reaction to its debt maturity extension while *Douglas Group*, the German distributor of beauty products, showed further gains ahead of results expected to show further strong E-commerce growth.

We remain constructive for 2021 and believe that interest rates are likely to remain relatively low for a while. Some adjustment should be expected over the course of this year as monetary support is withdrawn and is likely to result in increased volatility. However, recent earnings for both equities and bonds issuers have confirmed our central investment thesis focused on quality and value.
