

Investment Objective

The World Stars Global Equity Fund seeks to achieve its objective by investing in a concentrated selection of shares in leading global companies with enduring competitive advantages and a long runway of growth.

We select companies based on our own fundamental research, taking a long-term horizon. We do not follow benchmarks and always seek to invest in quality and value.

Quality means companies that are global leaders, have strong competitive positions and pricing power in structurally attractive and growing markets, have management teams with strong records of value creation and have robust balance sheets.

Value means buying those companies at prices that allow for the prospect of significant capital growth over 5-10 years or more.

Portfolio Comment

Our World Stars fund rose strongly in July as many of our companies reported substantial growth in Q2 sales or Q2 earnings and raised their guidance for the full year 2021. In some cases revenues were ahead of Q2 2019, before the onset of the pandemic, especially in consumer and luxury goods. Within the 19 of our stocks that released Q2 revenues in July, ten were 4% or more ahead of consensus.

Otis' (+9%) Q2 results underlined its strong competitive position in the growing 'vertical transportation' market. New equipment sales in escalators and elevators rose by 25% and orders by 24%, with service revenues up 8%. Most of its service contracts have price escalation clauses to cover inflationary cost pressures.

Alphabet (+8%) delivered outstanding Q2 revenue growth of 62% including 68% in Search, 84% in YouTube and 54% in Cloud. The growth in advertising revenues was broad-based across retail, travel, financial services and media & entertainment. The operating margin rose to 31% and net cash increased to \$136bn after a Q2 share buyback of \$13bn.

ThermoFisher (+7%), the global No 1 in life sciences, reported 27% organic growth in Q2 sales in the core business, excluding Covid-19 revenue. In many areas of its business and end markets, activity has recovered to pre-pandemic levels.
