

Investment Objective

The Star Multi-Asset Income Fund's investment objective is to generate an attractive income return on its Portfolio with lower volatility and the opportunity for capital growth.

The Star Multi-Asset Income Fund seeks to achieve its investment objective by investing in three asset classes; Equities, Credit and Non-Correlated Assets. We set bands around the portfolio components as follows:

- 35-55% - Equities allocation to drive capital growth
- 25-45% - Credit allocation to generate income
- 15-25% - Non-Correlated Assets allocation to provide uncorrelated returns with an attractive income yield and reduce overall volatility

The asset allocation is driven primarily by the yield that can be generated by the Credit portion, and complemented by the expected capital appreciation of the Equity and Non-Correlated Asset components.

Portfolio Comment

The Fund gave back 1.5% in USD over May (down 11.7% since the start of the year) as we saw the continuation of the negative momentum witnessed so far this year with the 10-year US treasury yields reaching 3.1%, ongoing conflict in Ukraine and continued concern over economic growth.

It was a month of two halves for equities marked by some clear bargain hunting in the last week as some share prices reached attractive levels. The largest detractors included *Block* (-12%), *Sika* (-11%) and *Salesforce* (-10%), the latter impacted following the lowering of revenue guidance to +20% but despite reporting a strong +26% revenue growth in Q1 in constant currencies.

The credit portfolio pulled back over the month driven by weakness across our Turkish holdings and some concerns around the Ukrainian conflict affecting *Transoil* (-10%). Despite this, recent purchases of higher credit quality bonds such as *Bruskem* (+4%) and *Marfrig* (+1%) started to contribute positively to the performance.

The non-correlated funds were also down for the month, mostly because of the announcement by the UK Government of a possible 'windfall' tax on power generators which put pressure on *Greencoat UK Wind* (-5%).
