

Investment Objective

The World Stars Global Equity Fund seeks to achieve its objective by investing in a concentrated selection of shares in leading global companies with enduring competitive advantages and a long runway of growth.

We select companies based on our own fundamental research, taking a long-term horizon. We do not follow benchmarks and always seek to invest in quality and value.

Quality means companies that are global leaders, have strong competitive positions and pricing power in structurally attractive and growing markets, have management teams with strong records of value creation and have robust balance sheets.

Value means buying those companies at prices that allow for the prospect of significant capital growth over 5-10 years or more.

Portfolio Comment

Our World Stars Global Equity fund declined in June, outperforming markets buffeted by the ongoing macro-economic issues, in particular headline inflation of 8-9% in many major economies and concerns over the ability of central banks to deliver a soft landing.

The US economy is clearly slowing and the 10 year Treasury yield has retreated below 2.9% from a recent peak of 3.5%. Upcoming second quarter results will show just how much companies are impacted and whether the inevitable technical recession will turn into a more significant downturn.

Companies that reported off quarter provided early indications. *Salesforce* (+3%) was the top performer following first quarter results with 26% revenue growth in constant currency. After a solid set of second quarter results, *Adobe* (-12%) reduced its full year revenue growth guidance to ~17% in constant currency, strong growth by any measure, but less than expected by markets. However, the business is gaining share in expanding addressable markets, has an EBIT margin of 35% and rising, and a forecast free cash flow yield of 4.8% in 2023. Adobe's share price decline leaves it attractively valued on a 23x P/E for calendar year 2023.

We will stay vigilant but expect second quarter results to show continued good progress from most of our companies. Their outlook will be more cautious in the short term, but it should not detract from their powerful competitive positions in long-term growth industries and their prospects for value generation. At today's valuations they represent great opportunities for investors to buy high-quality stocks.

Performance since launch on 14th June 2021 is that of the Fund's A1 CHF Share class. Prior to launch performance was that of J. Stern & Co.'s World Stars CHF Strategy, which the Fund follows, based on total return (with dividends reinvested) and net of 1% fees per annum, deducted quarterly in arrears. Past performance is not a reliable indicator of future results; the value of any investment can fall as well as rise; and returns may increase or decrease as a result of currency fluctuations.
